

PSY102: Introduction to Cognitive Psychology

Fall 2018, Instructor: Roberto Cabeza

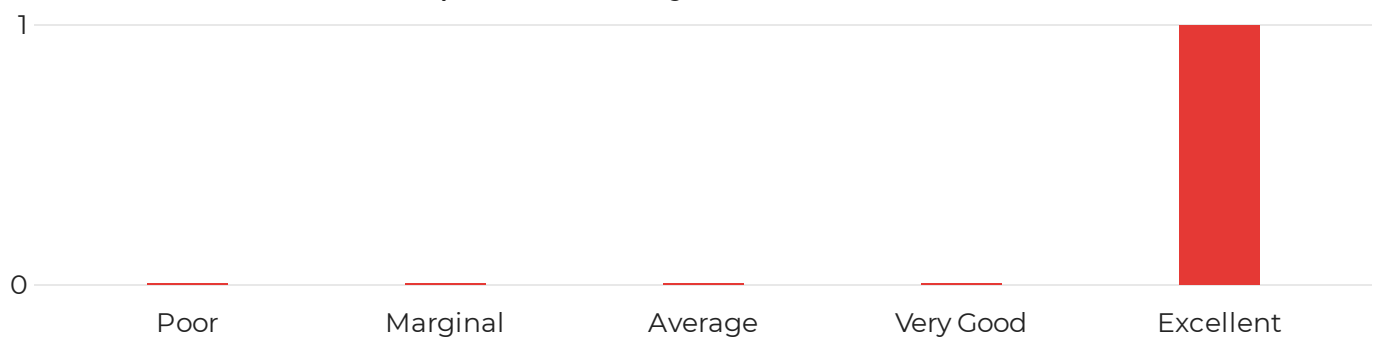

TAs: Christina Bejjani and Matt Stanley

Midsemester Feedback Survey

Who is your TA?

(Filtered for Christina) - Overall, your TA is:

What is at least one thing that you like about your TA & his/her teaching style?

He cares about what we say and acknowledges different ideas we come up with. Very easy to approach.

I like how we review the material from the week before because it refreshes the information very well. I also like how she directly answers questions in terms that are easy to understand.

In what ways could your TA 1) improve and 2) better support your learning?

Be a little precise when describing things. But doing really well.

During the review sections, it might be helpful to already have topics that we can go over that are tricky.
